FETO 2018

Dear Colleagues,

It's an immense pleasure inviting you to our first of its kind educational program, "Salem Feto 2018" exclusively organized for fetal medicine training, day to day antenatal care and medico legal aspects of PNDT Act.

We have selectively chosen extremely knowledgeable and experienced national faculties, who have generously accepted our invitation to share their knowledge with us all.

We hope to enlighten you with newer concepts in fetal medicine through live interactions with the stalwarts in this field which will provide you with a clear understanding of fetal ultrasound.

Thanking you,

Organising Committee

ABOUT FETAL MEDICINE

Fetal Medicine is a sub-specialty under obstetrics & gynecology. This specialty is more about the life of the fetus in the womb and care of the fetus as an individual. Our routine antenatal care now calls for more concern on fetus and mother, hence fetal medicine comes to the rescue.

ABOUT FETO 2018

Feto 2018 - Salem chapter brings the specialists in the field of fetal medicine to impart valuable information which is vital for the good health of mother and fetus prior to, during and shortly after pregnancy. Let's understand and make a difference.

WHY ATTEND THE FETO 2018

Learn from legends of fetal medicine from their practical experience

Get answers for your queries on fetal medicine directly from experts

Fantastic networking opportunity with the fraternity

Know where fetal medicine is headed and it's prospects

Interactive sessions and panel discussion by Celebrities of Perinatology

Practical topics for day to day ANC care

Fix the plans for prenatal and postnatal interventions
